Strawberries that are **EVERBEARING**

Mastaden ^{The} **Wonderberry!**

Still the most desirable everbearer, combining heavy yielding qualities, large size and reliability of crop with a flavor unsurpassed by any fall berry. **Pot-grown plants, \$2.00 per doz.; \$15.00 per 100.**

Through the development of the everbearing strawberry, the bearing season has been greatly lengthened, for 2 bountiful crops a year may be harvested: 1 in June, and the other during the fall months.

Gem everbearing, \$2.00 per doz.; \$15.00 per 100.

JUNE BEARING STRAWBERRIES

VERY EARLY SORTS

Dorsett. The bright red berries are large, firm, and shapely, and are of a delicious "wild berry" flavor, adaptable to almost all types of soil and climatic conditions.

Premier. Produces in vast quantities berries of good size, attractive appearance and excellent quality.

EARLY TO MIDSEASON SORTS

Fairfax. Ripening just after Dorsett, this remarkable variety produces many big, plump, solid berries, the flavor being the most refined in richness and sweetness yet produced.

LATE SORTS

Ambrosia. One of the very best late varieties, ripening its fruit a full month later than Premier. The variety is perfectly hardy, and is important to soil or climatic conditions.

Pot-grown plants: Dorsett, Fairfax, Ambrosia, Premier, \$1.50 per doz.; \$11.00 per 100.

Collection 100 pot-grown plants: 25 each of above 4 types June bearing strawberries, \$10.00 per 100. 50 at 100 rate. No C. O. D. Pot Plants Shipped Parcel Post or Express Collect

STRONG RUNNER PLANTS

Everbearing varieties, \$1.50 for 25; \$5.50 for 100. Dorsett, Premier, Fairfax, Ambrosia, \$1.75 for 25; \$4.00 for 100.

Better Small Fruits

Small fruiting bushes come into bearing much quicker than fruit trees. Every garden should grow a large variety of these worth-while sorts.

BLACKBERRIES. \$1.50 per doz.; \$10.00 for 100.

Eldorado. A very early, main crop variety with large handsome fruits of high quality. **Blowers Midseason.** Very hardy, extremely popular.

CURRENTS. 2-yr. plants, 75c each; \$7.25 per doz.

Fay's Prolific. Dark red, prolific bearer. **Perfection.** Bright red.

GOOSEBERRIES. 2-yr. plants, 75c each; \$7.25 per doz.

Downing. Green variety with thin skin.

RASPBERRIES. Strong plants, \$1.50 per doz.; \$11.00 for 100, except as noted.

Chief. The best early red variety, vigorous, productive, of excellent quality.

Columbian. A handsome purple hybrid between the red and black varieties. Large, firm, handsome berries of high quality. Strong plants which do not sucker.

Cumberland. Large "black-cap" fruits of excellent size.

Lotham. Vigorous, disease-resistant plants producing exceptionally large berries of good quality, bright red. Late.

Indian Summer. A recent introduction. Large red berries of the everbearing type. \$2.00 for 10; \$15.00 for 100.

HYBRID BLUEBERRIES (*Vaccinium Corymbosum*)

These shrubs, which bear quantities of delicious fruits, are a recent achievement of skilled horticulturists who have worked for years to improve one of our best native fruits. The plants are not too hard to grow providing you have acid soil. If you do not have this soil condition, create it for them by the addition of woods soil, oak mulch, peat, or aluminum sulphate when you plant them. As ornamental plants they are unequalled, their glossy green foliage turning a brilliant scarlet in the fall. These new-named varieties are not self-fertile; consequently, one bush planted by itself will not bear fruit, but where 3 or more plants of different varieties are grown closely together, abundant crops of huge luscious berries will result. For this reason, they are sold in units of 4 plants, 1 each of the following varieties: **1 to 1 1/2 ft., \$5.00; 1 1/2 to 2 ft., \$6.50.**

Cabot. Good sized berries of excellent flavor, ripening from first to middle of July. Plants low and spreading.

Concord. Upright grower with large berries. Young shoots bright red in winter.

Rubel. A few days later than Cabot. Tall, vigorous bush, fruit of good quality.

Jersey. A late variety. Tall, well-shaped bush, attractive appearance, excellent producer. Large, good quality berry.

1 to 1 1/2 ft., \$1.35 each; \$13.50 per doz. 1 1/2 to 2 ft., \$1.75 each; \$18.50 per doz.
